

FUGITIVE EMISSIONS SUMMIT AMERICAS 2026

APRIL 15-16, 2026 | PASADENA, TEXAS

San Jacinto College LyondellBasell Center for Petrochemical, Energy, and Technology

CALL FOR PAPERS

Driving Out Emissions

We are excited to announce that the Fugitive Emissions Summit will again take place at San Jacinto College's LyondellBasell Center for Petrochemical, Energy, and Technology in Pasadena, TX.

Over two dynamic days, participants will gain insights from and engage in thought-provoking discussions, as well as connect with experts eager to deliver real-world knowledge in detecting, quantifying and repairing leaks. All sides of the supply chain will be represented, from sensor manufacturers and drone suppliers to LDAR service organizations and environmental consultants to engineering companies, and end users. The event will focus heavily on innovation, collaboration, and actionable strategies.

Join professionals from all segments of the industry who are striving to achieve a common goal – reducing the unwanted emissions of greenhouse gases and VOCs from process facilities, refineries, tank farms, etc.

Call for papers!

The Advisory Board invites researchers, engineers, designers, operators, and innovators to present their insights, research activities, and case studies. Whether focused on practical applications, cutting-edge technologies or forward-looking strategies, your contribution will help define the conversations at this landmark event.

We welcome presentation proposals in the form of a 250-500-word abstract submitted by **November 10th, 2025**.

SUGGESTED TOPICS:

- Regulatory Updates & Compliance
- Monitoring & Testing
- Valves & Flanges
- Leak Detection & Control
- Consent Decrees
- Air Permitting
- Emission Control
- Best Practices
- Tanks & Pipelines
- New Technologies for Detection & Quantification
- Venting & Flaring
- Standards – development & application

SUBMISSION DETAILS

Submit your **250-500-word abstract** via the Fugitive Emissions Summit Americas website. Include a clear outline of your presentation and specify keywords.

Deadline: November 10th, 2025
